

IDC [Quanta]

The **intelligence fabric** of the AI-enabled enterprise

Your teams are moving fast — but without trusted, cited intelligence at their fingertips, they're leaving money on the table.

IDC Quanta changes that.

- **Embedded**
Meets you where you are and supercharges your tools. No login, no tab switching.
- **Contextual**
Your data, content, and history + IDC intelligence for personalized insights.
- **Secure**
Your data never leaves a private workspace and is never used to train AI models.
- **Aware**
Informed by anonymized peer and client signals— so you can lead, not react.
- **Rigorous**
Boardroom-ready data and analyst research – traceable to a specific IDC source.

Not built in a lab.
Built with you.

IDC's AI platform stood out to me as one of the **most intuitive and useful AI tools** I've seen across analyst research portals.

Jolene Peixoto
VP of Corp Communications,
Relx Solutions

Who does IDC Quanta benefit?

- ➔ Technology companies that have product, marketing, sales, and strategy teams who need fast, defensible answers for competitive positioning and planning.
- ➔ Enterprise IT and procurement professionals who need sourced intelligence to support technology investment outcomes.
- ➔ Investors and financial analysts and professionals tracking technology markets who need reliable, up-to-date intelligence on demand.

Unlike AI that *sounds* right,
IDC Quanta *is* right

Intelligence in minutes

Answers arrive automatically on your schedule with zero prompting or manual research.

Intelligence you can trust

Every answer verified against IDC proprietary data and traceable to its source.

Intelligence embedded where you work

IDC intelligence lives directly inside your apps and workflows.
